We had a fantastic lunch day at Lopez's Mexican Restaurant Tuesday, November 3rd 2026. It was great getting to see all the familiar faces once again and spending time to just talk, share information and maybe crack a few jokes. We had **56** in attendance. The **56** in attendance is a tie of our all-time attendance record and one person short of setting a new record. We sure came close. I think that speaks to the enjoyment everyone has at these lunches. I want to take this moment to thank each one of you who come to our lunches. Without you, it would be nothing. I realize some of you have to drive some distance to make. I thank you. I have attached the history of places we have eaten and the resulting attendance at each lunch for the past 4 years going now.

The food at Lopez as always was very good. We did encounter one unfortunate happening so bear with me while I explain. The wait staff which is normally very efficient at Lopez's seemed to be an inexperienced set of novice servers. They did fine at taking our drink orders and getting those back to the right people, "but" with many questions of who asked for what? Then when it came to deliver the lunch orders from the kitchen back to the right people at the tables, it was a disaster. They did not keep track of who ordered what well enough so they had to ask aloud who ordered this or that. In addition, some at the same table did not get their lunch plate until many others at the same table were already finished eating. Some of our people got upset and rightfully so, I had a little talk with management both during and after the lunch. While being nice, I did let them know it was unacceptable service and we come there often. I gave them a suggestion how to solve their problem from my management skills 😊. I told the manager I realized serving 56 people is no easy task, but it must be fixed. They were very apologetic and I feel it will be discussed at their next round table workers meeting.

We had our Fun drawing. Since we had more than 30 attendees we did draw two tickets per our rule. Winner with the First Ticket was **Tom**

Croissant ($27.00). The second ticket winner was **Lee McNally** ($27.00). What is weird is that this was Lee's first time to come to a lunch and he won. It is strange how this has happened multiple times before. So it does pay to come. Lots of fun involved. This is just a way for each of us to chip in to treat two lucky people to a free lunch for coming. Al Moffett is still trying to figure out how we are cheating him out of winning" except" when he has won in the past. As for me, I have never won. Congratulations to Lee being a first time comer and winner. I have attached the history of the Fun drawing winners.

I am honored to be entrusted in confidence by one of our members about what I am about to share with you here. Out of privacy respect, I will not reveal names, but I will share their story with you with their permission. One of our members has a family member who suffered a life-threatening stroke at a young age. Now once again at age 47, there has been a recurrence of the same problem. It is caused by clogging of a vein in the neck. Thank goodness, this family member survived the first case with proper medical treatment. Now, here again after several years the same family member has once again been diagnosed with the same problem. MRA tests are being done now to determine the proper approach to treatment and likely challenging surgery will be undertaken immediately. At this point in time the test are underway and may be completed or nearing completion. As soon as results are known, likely they will do the surgery. Our member is understandably frightened for their loved one. My point in telling you this is to ask for your prayers for this person. God knows who it is and there is power in prayer. We have so many in our group that have health issues and I am sure they would like to have your prayers as well. My recommendation is let's keep each other in mind as we say our prayers.

Lastly, I have something else comical to share with you before I shut myself off. One of the ladies in our group was brave enough to tell me my zipper was down. ☹ I quickly remembered tucking in my shirt that morning, but not finishing the necessary task. Once my embarrassment was remedied, life seemed to return to normal after the laughs. I always told myself I would never be one of those old men who forgets to zip up. Good gosh, what is it going to be like when I do get old 😊.

Not sure yet where we will be going for lunch in December because I want to check out a couple of brand new suggestions. Be assured, I will be getting the word out once I know.
