Oh-wow, we had a fantastic lunch Tuesday at Floyd's Seafood restaurant in Sugar Land. Hope you are up to reading as this progress report is a long one. We had a fantastic attendance of **50** people that created the atmosphere and lots of conversation and visiting with many ole friends and coworkers. All this in light of the threat of Tropical storm "**Edouard**". We had great attendance and no effects from the weather.. Totally to my surprise. At least that was my experience and I live a far distance. So glad I did not cancel the lunch after all is said and done from the weather fear and that turned out to be the right decision after consulting with **Gary Luckett** and getting email

responses back from some who replied to my weather question. An enjoyable day. (I have attached the history of all the places we have had lunch and the resulting attendance history at each one).

As I said, we had 50 people in attendance and I really do appreciate each one of you who weathered the trip to attend not really knowing just how much street flooding we might face. For those who missed I respect your decision based on the possible risk of flooding streets and making the decision in your best interest at your location. Our record attendance count in the past is 56 attendees, so we did not quite reach a new record attendance, but I was beginning to think we might. (I have attached a copy of the attendance list from this Floyd's lunch for your interest).

We had some first-time attenders: We were happy to see **Gwen Gallien and Mary Camama** with her husband **Mike Camara**, also **Mike Welch** was a first time attender. Our increased attendance came from several who came who had not come in some time, so that was a welcome happening. **Russ and Glenda Kneupper** were back from their ocean cruise and their trip to the Philippines to visit family there. I think **Pete Mann** brought **Rick Smith** with him. Pete's latest adventure is to ride motor bikes in one of the national parks with his brother. Rick has been busy and in the process of moving. Rick said he and Kim were downsizing. Good to see **Tom Johnson** and his wife **Jeannete Johnson** again. I finally figured out the communication problem with them not getting my emails so that is now fixed. I saw **Cindy Metz** showing **Clara Freudensprung** some of her photos of beautiful sewing projects she has done. **Larry Peters** was in attendance. Larry has been doing some world traveling. I learned that **Scott Moseley** plays guitar and so do I, so we said we should jam together sometime and see just how much damage I can do. We will see where that goes. **Glenda Mosely and her husband Richard Mosely** have had to make two separate trips to Oklahoma recently for different reasons. It always interests me because that is my home territory growing up. I think that may be Richard's home territory with family there. They drove right by my college alma mater in Durant Oklahoma at Southeast Oklahoma State University. I told them to wave for me as they drove by. Some in our group have wives at home that are not in good health who cannot

make these lunches, so we need to be sure and remember to keep our entire group and their families in our prayers as well as their spouses. **Rolly De Meza** took some room shots of the group and I will be sharing his photos with you all by separate email.

Lucy Salas took all her usual individual photos and those will be posted up on the TI Alumni web site managed by **Lawson Cook**. Thank you Lucy. Lawson is out of town at this moment and will be shortly delayed getting the photos posted to our web site, but he will let me know when he does and I will let all of you know and you can all go see your lovely photos on the TI Alumni web site for September 2026 at: <https://www.tihaa.org/>

We had our regular Fun drawing at Floyd's. I always appreciate those who volunteer to sell the Fun drawing tickets and take care of that for the group. The first ticket winner was **Jeff Thellen** (\$26.00). Jeff won back in January 2026 the first time. The second ticket winner was **Rolly De Meza** (\$25.00). Rolly also won once back in year 2024. So, they got the cost of their lunches paid from their winnings. That is the idea. Congratulations to these two. Never give up, you will win someday, (like me, I have never won). As you know to keep the odds in everyone's favor, we only sell one ticket per person for \$1.00. That is why your odds of winning are the same as everyone else's. (I have attached the history tracking of the Fun drawing for your interest)

I am thinking at this moment our next lunch will be in Rosenberg. There is a new Chinese Buffet called Buffet 9 located at 4310 Avenue H #30 Rosenberg 77471. It is a newly opened buffet under new name and management suggested by a couple of our members. I will check on it first to make sure they can accommodate our group size. It is rated 4.5/5 stars. More on this later after I have time to check it out and issue the lunch email for October.

I appreciate each one of you who come to these lunches. Again, without you, there would be no pleasure in them. Keeping the friendships going and keeping up with each other is what it is all about. I think we all have enjoyed catching up with each other on what is going on with us all after retirements and the TI plant shutdown. If you are missing these lunches,

I think you are missing out on some very enjoyable and interesting fun times. Try to come soon if you can. You will find a warm welcome. I want you to know I also use this platform to try to pass along information that each of share an interest in. Just like the recent one on what you thought about the weather and keeping the lunch plan for Floyd's and thanks to those who had time to reply. Also, any news about TI factories and business and news of our friends.

Tarry
